CUSTOM SHAPED WIRE

Made for *Your* Unique Application Requirements

SHAPED WIRE

Gauge Range: .002" - .187"
Width: Up to .750"

Just a few of the shapes we offer:

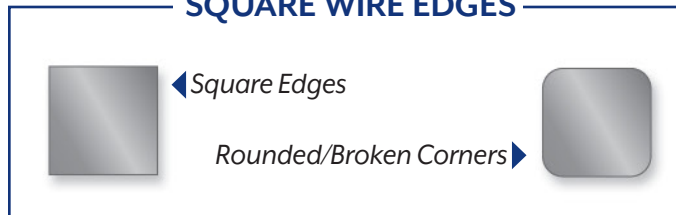

SQUARE WIRE

Squares Ranging from: .016" x .016"
Up to .250" x .250"

Our square wire is produced by cold rolling either redrawn round wire or rod. Depending on the finish temper or the amount of reduction, an annealing process may be required during the production process.

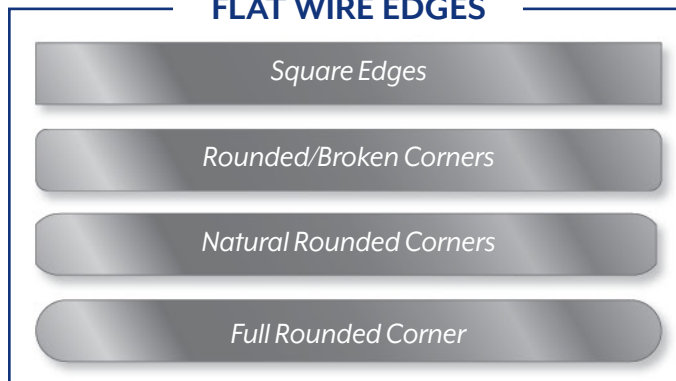

SQUARE WIRE EDGES

FLAT WIRE

Gauge Range: .002" - .187" Width: Up to .750"
Ideal for stamping or spring applications, our flat wire is produced by cold rolling either redrawn round wire or rod.

FLAT WIRE EDGES
